Fast and Quiet Scanning
Intuitive Design
Small Footprint
Exceptional Image Quality
Ultraviolet Image Capture

The award-winning CheXpress CX30 is the only bank-quality check scanner offered at a small business price. This stylish and quiet single-feed scanner is the perfect device for lower volume check capture environments.

Worry-Free Reliability
Our scanners are engineered to last. The CX30 will process over a million items during its life, which is the highest duty cycle of any scanner in its class.

The Ultimate in Low Maintenance
Maximize productivity and avoid hardware headaches. The CX30’s simple transport design means minimal user maintenance is required.

Here, There, Anywhere
We know desktop real estate is at a premium. The CX30’s economical footprint and flexible cable management system means you won’t have an issue finding it a home in your workspace.

Pass Through Feed Option
Users can choose between “scan and return” or “pass through” scan modes. With “pass through”, scanned items follow a straight paper path and exit through the rear of the scanner. Ideal for kiosks and other self-service settings.

Extremely Fast, Remarkably Quiet
At a rated speed of one second per scan the CX30 makes quick work of any deposit. Concerned about noise? Don’t be. The CX30 is remarkably quiet and suited for any work environment.

Image and MICR Quality is Everything
Featuring high performance front and rear image cameras with dual pass MICR read-head capability, the CX30 is truly in a class of its own. With our special document handling technologies, even the most challenging money orders and checks written with gel pen ink are a snap to process.

Encrypted Card Reader
The CX30 becomes a complete merchant check imaging and credit card payment processing machine with the addition of the optional DockXpress encrypted card reader. Designed to fit underneath any CX30 scanner, the DockXpress provides the strongest security for your credit and debit card transactions by encrypting sensitive data as soon as the card is swiped.
Optional CheXpress Add-ons

DockXpress
Designed to fit underneath any CX30 scanner, the DockXpress provides the strongest security for your credit and debit card transactions by encrypting sensitive data as soon as the card is swiped. Merchants can accept both checks and cards in one space-saving device, or tellers can use it to scan magstripe enabled ATM cards or IDs. The DockXpress is PCI compliant and supports the Point-to-Point Encryption (P2PE) standard. For more information, go to: www.digitalcheck.com/dockxpress

Digital Check Advisor
This remote monitoring and management software solution allows organizations to remotely monitor hardware assets so problems can be resolved before customers are impacted. Equipped using the latest in geo-location technologies, Advisor provides real-time intelligent tracking of each scanner deployed. Automatic alerts provide immediate notification in order to prevent fraudulent or unauthorized deposits. Implementing Advisor enables organizations to ensure a positive customer experience while responding to growing internal demands for secure monitoring of deposits across multiple remote channels. For more information, go to: www.digitalcheck.com/DCAdvisor

PRODUCT SPECIFICATIONS

Size
H: 7.47” (18.97 cm) W: 3.92” (9.96 cm) L: 9.38” (23.83 cm)
Weight: 3.95 lbs. (1.8 kg)

Document Handling
Entry Pocket: 1 item at a time
Exit Pocket: 5 items if Pass Through mode is enabled
Document Height: 2.12” - 4.25” (54 - 108 mm)
Image Capture Height: Up to 4.177” (106 mm)
Document Length: 3.19” - 8.98” (81 - 228 mm)
Document Weight: 16 - 28 lb. bond (60 - 105 gsm)
Document Thickness: 0.0032” - 0.0058” (0.081 - 0.147 mm)

Printer Option
Single line inkjet printer with user replaceable cartridge

Franker Option
User replaceable red ink stamp

MICR Recognition
(Magnetic Ink Character Recognition) for E13B (North America) and CMC7 (Europe)
Optical Character Recognition to enhance MICR Read, further enhanced using DCC’s Best Read™ API function

Connectivity
Mini-B USB 2.0 cable and power supply included

Camera Specs (Scanning Method)
Concurrent Two-Sided Duplex
Resolution: 300 dpi (850 Pixel Linear Array)
Light Source: Tri-Color LEDs
Optional Front Ultraviolet Camera

Supported Operating Systems
Windows® XP, Windows Vista® (32 / 64 bit), Windows 7® (32 / 64 bit), Windows 8® (32 / 64 bit)
Mac OS X® (10.6 or newer)
Ubuntu® 7.05, Red Hat AS - Version 5, OpenSuse

Standard Warranty
1 year warranty

Electrical
Power Consumption: 24 Watts
Input Voltage: 100 to 240 VAC, 50/60 Hz
Separate Standard Power Supply. Auto sensing for voltage

Environmental
Operating Temperature: 60° - 90° F (15° - 32° C)
Operating Humidity: 35 - 85% non-condensing

Certifications
Safety: UL, cUL, CE
FCC: Class B (Industrial, Business or Home)
EMC: IEC CE
Efficiency: CEC V 115V - Power Supply
RoHS Compliant

Image Enhancement for Difficult Items
Most image quality failures today are generated by a handful of documents that are notoriously difficult to image; Money Orders, security checks, and items with bright backgrounds or busy designs. Digital Check specializes in tackling these problem documents with our advanced image capture technology. Utilizing special document handling techniques, we identify and filter out the background noise to capture what’s important.

Experiencing an issue with a particular type of check or money order leading to exception item processing? This is the solution for you. Banks and Credit Unions around the world have reported significant cost savings by minimizing errors and Day-Two research and repair with Digital Check.
