As Digital Check’s fourth generation auto-feed scanner, the TellerScan TS240 represents a legacy of proven performance and reliability. Ideal for a range of applications including capture at the teller window, remote deposit capture and branch back counter environments.

**Built for Speed and Flexibility**
Regardless of the scanning environment, the TS240 has the speed to meet your processing time requirements. 50, 75, 100, and 150 DPM speed configurations are available.

**A Robust Menu of Options**
The TS240 is nicely equipped to support up to four lines of integrated rear inkjet printing and a front franking stamp. A separate thermal receipt printer module is available too, which fits neatly under the base scanner unit to provide optimal desktop space savings.

**Encrypted Card Reader**
The TS240 becomes a complete merchant check imaging and credit card payment processing machine with the addition of the optional DockXpress encrypted card reader. Designed to fit underneath any TS240 scanner, the DockXpress provides the strongest security for your credit and debit card transactions by encrypting sensitive data as soon as the card is swiped.

**Ultraviolet (UV) Image Capture**
For markets utilizing the latest in UV document security protection, the TS240 is easily configured to handle ultraviolet image capture. UV printed security backgrounds and other fraud prevention features are captured for verification without any performance impact. The TS240-UV is compatible with UV standards worldwide.

**Image and MICR Quality is Everything**
The TS240 features the highest image quality camera and MICR read-head components available. Combine that with our special document handling technologies, even the most challenging money orders and checks written with gel pen ink are a snap to process.

**No-Hassle Maintenance**
The TS240 is designed to be simple to use and easy to maintain for the life of the scanner. No need to worry about frequent part replacements or rebuild kits common with other scanners.
**Optional TellerScan Add-ons**

**TS240/TTP Thermal Receipt Printer**
The TTP by Digital Check has been specially designed to integrate seamlessly with the TellerScan TS240 for best-in-class scanning and receipt printing in a teller window environment. The TTP takes advantage of industry leading thermal printing technology by CognitiveTPG to produce full graphic enabled customer receipting. When searching for the most versatile receipt printing solution to replace your expensive ink-based system, the TTP will save hundreds of dollars per year and without the hassle of cartridges or ribbons. **Digital Check Advisor**
This remote monitoring and management software solution allows organizations to remotely monitor hardware assets so problems can be resolved before customers are impacted. Equipped using the latest in geo-location technologies, Advisor provides real-time intelligent tracking of each scanner deployed. Automatic alerts provide immediate notification in order to prevent fraudulent or unauthorized deposits. Implementing Advisor enables organizations to ensure a positive customer experience while responding to growing internal demands for secure monitoring of deposits across multiple remote channels. **PRODUCT SPECIFICATIONS**

**Size**
- H: 7.5” (19.05 cm)
- W: 5.10” (12.95 cm)
- L: 11.10” (28.19 cm)
- Weight: 5.20 lbs. (2.40 kg)

**Document Handling**
- Entry Pocket: 100 items at a time
- Exit Pocket 1: 100 items at a time
- Document Height: 2.12” - 4.25” (54 - 108 mm)
- Image Capture Height: Up to 4.17” (106 mm)
- Document Length: 3.19” - 8.98” (121 - 228 mm)
- Document Weight: 16 - 28 lb. bond (60 - 105 gsm)
- Document Thickness: 0.0032” - 0.0058” (0.081 - 0.147 mm)

**Printer Option**
- Single or four line inkjet printer with user replaceable cartridge

**Franker Option**
- User replaceable red ink stamp

**Scanner Speed**
- 50, 75, 100, or 150 documents per minute

**MICR Recognition**
- (Magnetic Ink Character Recognition) for E13B (North America) and CMC7 (Europe)
- Optical Character Recognition to enhance MICR Read, further enhanced using DCC’s Best Read™ API function

**Connectivity**
- USB 2.0 cable and power supply included

---

**Camera Specs (Scanning Method)**
- Concurrent Two-Sided Duplex
- Resolution: 300 dpi (850 Pixel Linear Array)
- Light Source: Tri-Color LEDs
- Optional Front Ultraviolet Camera

**Supported Operating Systems**
- Windows® XP, Windows Vista® (32 / 64 bit), Windows 7® (32 / 64 bit), Windows 8® (32 / 64 bit)
- Mac OS X® (10.6 or newer)
- Ubuntu® 7.05 (or newer), Red Hat AS, OpenSuse

**Standard Warranty**
- 1 year warranty

**Electrical**
- Power Consumption: 45 Watts
- Input Voltage: 100 to 240 VAC, 50/60 Hz
- Separate Standard Power Supply. Auto sensing for voltage

**Environmental**
- Operating Temperature: 60° - 90° F (15° - 32° C)
- Operating Humidity: 35 - 85% non-condensing

**Certifications**
- Safety: UL, cUL, CE
- FCC: Class A
- EMC: IEC CE
- Efficiency: CEC V 115V - Power Supply
- RoHS Compliant
