

Remittance Processing • Imaging • Lockbox • Remote Capture • Check 21 • ATM Deposit Balancing • POD • ACH • Image Archival

RP Solutions, Inc. *Corporate and Product Overview*

RP Solutions, Inc. is an inspired software developer and solutions provider for electronic and image based item and payment processing. Our solutions process deposits and payments received at businesses, lockboxes, ATMs, bank branches and websites. With our products sharing a common code base, RP Solutions brings compelling value as a single source provider of an enterprise-wide distributed capture solution. A common infrastructure ensures a tightly integrated package that consolidates complex transactions from multiple points of presentment and manages them centrally.

With over 20 years of industry experience, RP Solutions brings a demonstrated approach to current payment strategies and provides advanced solutions for new and evolving forms of payment. Whether transactions come in as paper, images, or across the web, we offer complete end-to-end deposit and payment processing solutions.

Check 21 has opened up new markets and presented many new opportunities for our image based products. We help organizations realize the benefits of Check 21 with products ranging from a remote deposit solution for small businesses to advanced customizable product suites for high volume payment processors with hundreds of thousands of payments per day.

In addition to providing outstanding business solutions, we believe it is our dedication and commitment to customer service that sets us apart from the competition. We have a highly qualified professional services team that delivers expert design consultation, customized development, on-site implementation, exceptional customer support, system upgrades and recovery assistance. Customers tell us that our high level of customer service and support results in a superior experience for them.

RP Solutions is a privately held corporation built around four core values:

service • excellence • integrity • respect

Inspired and driven by these values we strive to serve our customers beyond their expectations, provide excellent products and services, build relationships based on trust, and treat employees and customers alike with care and respect.

Your Experts In Payment Processing Solutions

RP Solutions, Inc.

Corporate and Product Overview

Our Software Product Suites

For Financial Institutions	For Business and Government	Product	Description
●		ExpertATM	An advanced ATM deposit balancing solution that handles both image and envelope deposits.

●	●	ExpertRPS	A sophisticated lockbox and in-house remittance processing solution for retail and wholesale payments.
	●	ExpertCASHIER	A full payment processing solution for cashier window environments.
●	●	ExpertICE	A powerful image archival/retrieval solution that provides online and offline access to data and images.
●	●	RD Express™	A web-based remote deposit solution with integrated payment clearing.
●	●	AR Express®	A remote deposit solution with remittance functionality and flexible clearing options.
●	●	WebPay Express	A comprehensive solution to process credit card, debit card and ACH payments via the web or by phone (IVR).

Our software architecture ensures that our applications are highly flexible and scalable. Each processing step is implemented as an independent component allowing keying and other functions to be distributed across as many PCs as necessary to achieve the required throughput. Our solutions scale from a single PC with low volume to a high volume environment spread across many remote locations. Sophisticated workflow management optimizes system performance. These inherent design features result in products that satisfy a broad range of customer requirements and that stay state-of-the-art in the rapidly changing payment processing industry. Our national client base consists of

financial institutions, businesses and government agencies, all with unique environments.

Leveraging our platform independent applications, RP Solutions is aligned with leading equipment manufacturers to provide the finest integrated solutions in the industry. A wide range of best in class hardware components are integrated including item processing transports, check and page scanners, paper jogggers and mail extraction equipment.

RP Solutions is recognized in the industry for proven technologies, robust product designs and a rock solid commitment to customer support.
